Prior Council Action: May 25, 2006, by Resolution No. 20060525-051

The Austin Police Department operates an Automated Palm and Fingerprint System (APFIS) that is used as an identification system in the booking and criminal justice system. This interlocal agreement would allow Travis County to connect to the City of Austin's APFIS; to enter its fingerprint and palm records into the APFIS database; and to search the database for matches. Travis County's participation in APFIS will increase the records available to make potential matches, thus providing more information for solving crimes.

Due to the importance and the need of this program, both parties would like the interlocal to go into effect as soon as possible. This agreement takes effect immediately when signed on behalf of both parties, the agreement shall automatically renew annually, on October 1 of each successive year, for up to four (4) renewal periods, unless terminated by either party by written notice given at least sixty (60) days prior to the end of each contract year.

Travis County will assume the costs to access the system which include furnishing and maintaining the communication line from APD to Travis County; purchasing the workstation and any necessary peripherals; and ensuring that data entered meets APFIS standards. The City of Austin will continue to maintain security access and is considered the primary owner of the system.
